

PHARAOH FLATTENING DART GUN TARGET

LEVEL: MEDIUM

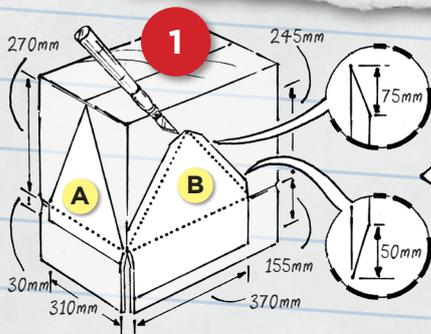

Shoot the target to release the pyramid and crush the Minions' second evil master! A cool dart gun accessory that will amuse parents and children.

MATERIALS

- 2 x Corrugated cardboard box (min 457mm x 305mm x 305mm)
- 1 x A4 210gsm card
- Paperclip
- Sticky tape
- Poster paints
- Paint brush
- Permanent marker
- Pencil and compass
- Colouring pens
- Glue gun
- Scissors or craft knife
- Ruler

Ahhhh!

EVIL MASTER #2

1: Cut the pyramid sections (A and B) from one of the corrugated cardboard boxes. You'll need two pieces of each.

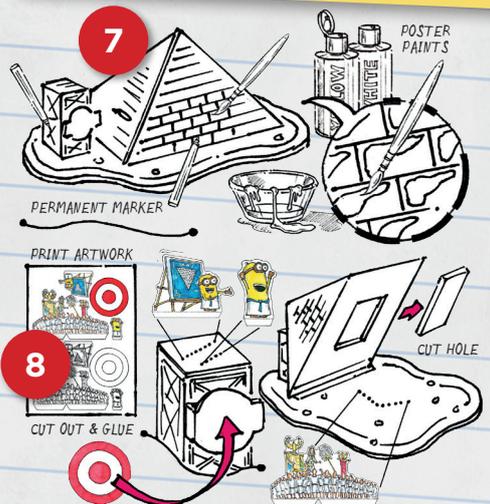

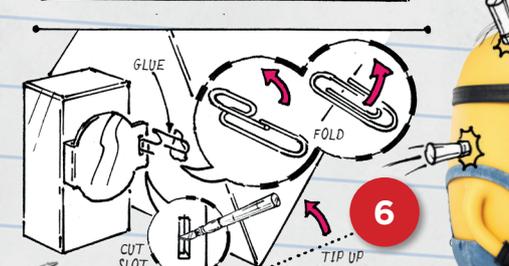

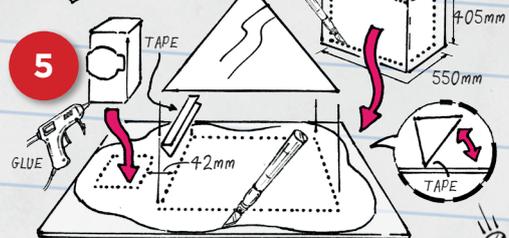

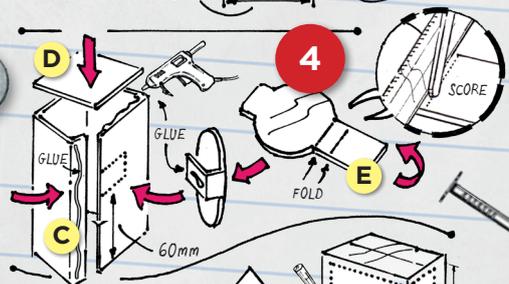

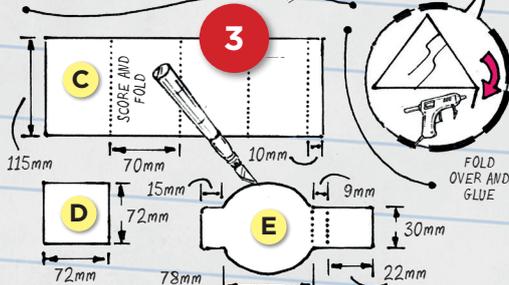

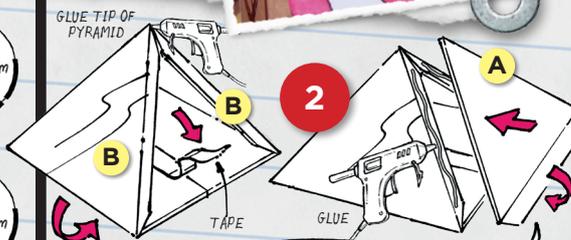

2: Fold the bottom flaps of section B inwards and join with tape. Glue the tops together using a glue gun. Attach sections A using more hot glue.

3: Cut out the 3 shapes shown from a piece of corrugated cardboard.

4: Score the folds using a ruler and wooden stirring stick. Fold section C into a tube and secure using glue. Attach section D on top with more glue. Fold section E, as shown, and attach to section C using glue.

5: Cut a large section of card from another cardboard box to form the base. Attach the pyramid with a strip of tape on one side (so it can tip up). Glue the tube (the tower) next to the taped side of the pyramid. Trim the base into a curved shape.

6: Make a 'release catch' by bending the inside of a paper clip over. Make a small slit in the right of section E (the target). Tip up the pyramid, and position the paperclip on the pyramid with the catch in the slot - secure the paperclip onto the pyramid using the glue gun.

7: Use a permanent marker to draw bricks onto the pyramid. Add other details like the scaffolding on the tower. Use poster paints or felt tip pens to add colour.

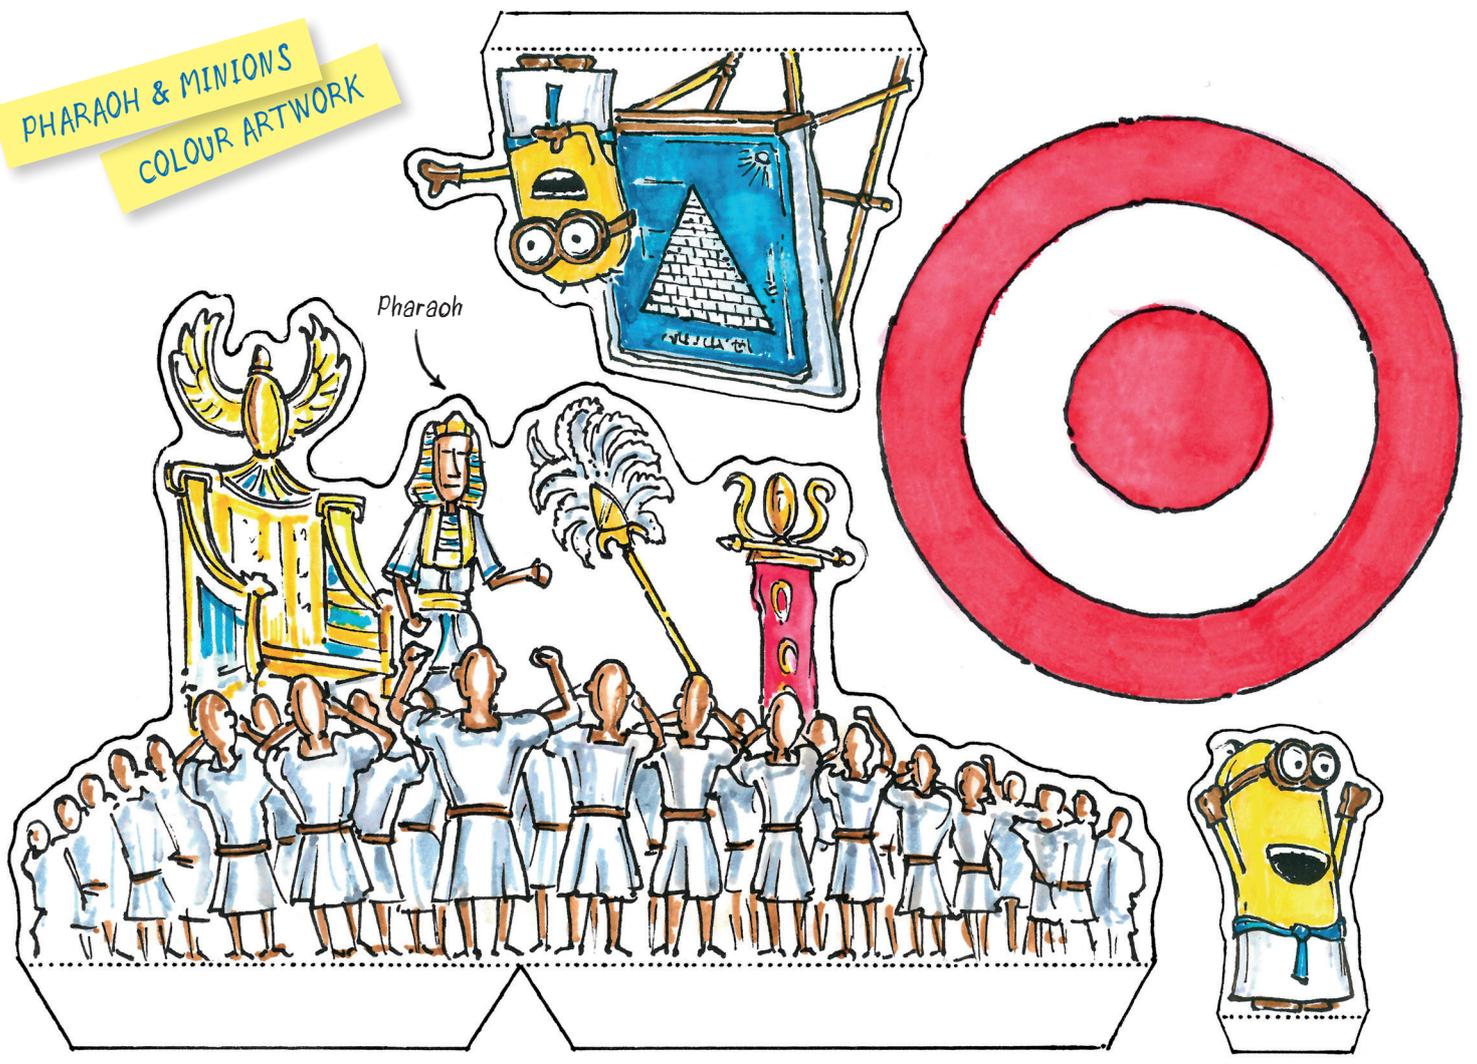

8: Print the artwork on to card and cut it out. Glue the minions and the target onto the tower and the glue the Egyptians under pyramid. Finally, cut a hole in the base of the pyramid that fits over the Egyptians.

HOW TO PLAY

Tip up the pyramid and push the end of the paperclip catch into the slot in the target. Load up your dart gun and shoot it at the target. The power of the dart gun bullet will push the target backwards, releasing the pyramid and flattening Pharaoh and the Egyptians!
